SUMMARY OF QUALIFICATIONS

Front-end Developer with experience in React, TypeScript, JavaScript, HTML, CSS, and more. Currently pursuing a degree in Systems Analysis and Development to strengthen my theoretical knowledge. Actively involved in challenging Front-end projects in a remote capacity through an Academy based in the United States, building a diverse and impactful portfolio.

PROFESSIONAL EXPERIENCE

Apprentice Developer at Eitree - United States (Remote)

- Engaged in the development of a web system for a Brazilian non-governmental organization focused on animal adoption. In this project, involved in back-end development using Python and relational databases, as well as front-end creation with React.js.

Intern in Electronics Technician at InfoP4 - January/2019 to April/2019

- Performed maintenance on computers, laptops, and printers.
